

GRAPESEED (VITIS VINIFERA) SEED OIL

Grapeseed oil, sometimes known as grape seed oil, is the oil extracted from seeds of grapes. It is typically a by product of wine and mostly originate in large wine producing countries like Italy, France or Spain.

Grapeseed oil is a very light oil can be used by those with sensitive skin, and works as an excellent moisturizer that won't clog pores. The oil can also help hasten healing of problems, such as minor abrasions or pimples. It is well known for its astringent qualities that stimulate biological tissues to contract and draw together to help tighten and tone up the skin.

Grape seed oil is a perfect oil for Facial massage oils or Facial products formulation.

A very stable oil when heated, it could be used on its own or mix it with some other oil to create a hot oil treatment for both skin or hair.
