

MORINGA (MORINGA OLEIFERA) OIL

Moringa oil is extracted by pressing the seeds of Moringa oleifera tree. A tree native to some parts of Africa and Asia. The tree is a familiar sight in Thailand where the seeds are used in local cooking.

It is one of the best moisturizers for the skin. It is absorbed well into the skin, making it a nice ingredient massage oil especially facial oils.

This brilliant moisturization effects is because of very high amount of omega-9 fatty acid (oleic acid) in moringa oil. It also makes the skin quite smooth, because of the behenic acid in it. Behenic acid is used in many products for its ability to smooth the skin and condition hair.

Moringa oil is helpful in dry, irritated skin conditions like eczema and psoriasis.

It is also valuable with acne Because of its anti-inflammatory properties, moringa seed oil can be used as a spot treatment for acne.

It also aids the body in healing acne scars. It can be applied over scars left behind by wounds, scrapes, bruises and burns. Moringa oil mixed with Tamanu oil is a powerful scar diminishing formula.

The oil slips easily on the skin and spreads well.
