

SWEET ALMOND (PRUNUS DULACIS) OIL

Sweet almond oil is one of the most popular carrier oil around the world. Alodia Sweet almond oil is a refined oil with added natural tocopherols for greater stability.

It absorbs into the skin with medium-fast speed and is a non greasy moisturizer. It can be used pure or blended with other oils. The addition of Sweet almond oil to a carrier oil will give the carrier a nice silk like feel to the skin.

Sweet almond oil is high in mono and polyunsaturated fatty acids, minerals and glycosides. Fatty acids are necessary along with glycerol for the cell to function normally. Sweet almond oil also contains vitamins A, B1, B2, B6 with small amounts of Vitamin E and D.

Due to the presence of Vitamin E the oil has antioxidant capability. Antioxidants protect vital cell structures by neutralizing free radicals. Topical vitamin E has shown to have a wide variety of skin benefits. Many studies have shown that it can help decrease the effects of psoriasis, erythema, and may help in reducing the risk of skin cancer.

Vitamin E also helps in the reduction of scarring from wounds and on the appearance of stretch marks on the skin

Sweet almond oil contains Vitamins A, B1, B2, B6 and E.

It is suitable for all skin types.
